1x Standard Wedge**

ABC POSTURAL SUPPORT STARTER PACK

This starter pack gives you a combined saving of \$50 off 3 of our most highly recommended postural support products.

The ABCA Adjustable pillow, designed to help support the sleeping posture of patients under ABC care, with a total of 7 pieces to achieve a pillow height perfect for your individual posture and body shape.

Plus both the small and standard seat wedges, to assist in maintaining a more stable upright posture with open chest for ease of breathing, and reduce forward head carriage. Designed to conveniently modify most chairs for better pelvic positioning, resulting in less pain and better unwinding between adjustments.

Available in 2 heights to help support most body shapes and chair designs. The original 2 inch is best for car seats and the smaller 1 inch wedge best for flat/near flat chairs.

The postural support starter pack to look after your posture between visits.
